AD-125 How Abstinence Protects You From HIV and Other STDs: Get the Facts

(limit: 5) brochure

This pamphlet promotes sexual abstinence to prevent HIV/AIDS and other sexually transmitted diseases. (Journeyworks, 2001)

AD-135 Not Ready for Sex: Talking With Your Partner

(limit: 5) brochure

This pamphlet outlines negotiation skills for people who are not ready to enter into a sexual relationship. (ETR Associates, 1998)

AD-140 Stop Wondering, Get Tested: HIV and Other STDs

(limit: 2) brochure

This pamphlet promotes testing for HIV and other STDs. It lists a number of risk behaviors and advises individuals who had practiced these behaviors at least once to get tested. (Channing L Bete, 2005)

AD-160 Cristina's Story About HIV - For Hispanic/Latina Women

(limit: 5) booklet

A young woman concerned about HIV visits a cousin knowledgeable about HIV transmission and prevention. From her, Cristina learns self-protection measures, including how to assure her boyfriend that she trusts him while insisting on his using a condom should they have sex. 7 pages (Channing L Bete, 1995)

AD-167 * Drugs, Alcohol and HIV/AIDS

(limit: see below) brochure

Drug Abuse behavior plays the single largest role in the spread of HIV infection in the United States today. This brochure answers questions and offers resources and contact information. (SAMHSA, 2006)

* **AD-167E English** (limit 10)

* **AD-167Af-Am African-American** (limit 10)

* **AD-167S Spanish** (limit 5)

AD-170 Mental Health and HIV/AIDS

(limit: 10) card

This card provides several facts about HIV/AIDS as well as suggested resources people can access to educate themselves about mental health issues related to HIV/AIDS. (SAMHSA, 2005)

AD-359 Public Health: HIV Prevention with Drug-Using Populations Current Status and Future Prospects

(limit: 1) book

This Public Health Reports Vol. 113, Supplement 1 Special Issue provides a comprehensive review of the origins, evolution and current status of the HIV prevention science knowledge base that was derived, in large part, from NIDA's HIV research and intervention programs. 204 pages (U.S. Public Health Service, 1998)

AD-371 Principles of HIV - Prevention in Drug-Using Populations: A Research-Based Guide

(limit: 1) book(s)

This guide provides the basic overarching principles that characterize effective HIV/AIDS prevention in drug users. As an important contribution to NIDA's ever-expanding prevention toolbox, this guide should prove useful to community planners, policymakers, service providers and medical practitioners. 32 pages (NIDA, 2002)

* **AD-371E English**

* **AD-371S Spanish**

AD-380 New Attitudes and Strategies: A Comprehensive Approach to Preventing Blood-Borne Infections Among IDUs

(limit: 5) brochure

This pamphlet discusses solutions to the problems of society's negative attitudes toward IDUs, lack of understanding of drug addiction as a treatable disease, limited funding, restrictive laws and polarized viewpoints. (CDC, 2000)

AD-390 Substance Abuse Treatment for Injection Drug Users: A Strategy with Many Benefits

(limit: 5) book

This series of fact sheets addresses the importance of ensuring that IDUs receive substance abuse treatment in an effort to reduce drug use and reduce their risks of blood-borne diseases such as HIV, Hepatitis C and Hepatitis B. 22 pages (CDC, 2002)

AIDS & HIV posters

AD-549 Substance Abuse Treatment for Persons With HIV / AIDS

(limit: 1) book

This TIP Series 37 discusses the unique substance abuse treatment needs of a person with HIV/AIDS. Topics covered include a general overview of HIV/AIDS, medical treatment, mental health treatment, primary and secondary modes of HIV prevention and many other pertinent issues. 316 pages (CSAT, 2000)

AD-549QC Quick Guide for Clinicians (for above)

(limit: 1) booklet

AD-575 * HIV / AIDS

(limit: 1) report

This NIDA Research Report discusses how drug use can affect the spread of HIV and AIDS through the dangerous risk behaviors it engenders. NIDA has established that drug abuse treatment is HIV prevention. This report is designed to highlight the state of the science and raise awareness of the linkage between drug abuse and HIV/AIDS. 8 pages (NIDA, 2006)

* AD-575E English

* AD-575S Spanish

AD-580 HIV/AIDS: Is Your Adult Client At Risk?

(limit:1) brochure

This pocket-sized guide provides quick tips to help substance abuse treatment providers talk to clients about avoiding risky behavior that could lead to HIV/AIDS. A card enclosed in the pocket helps treatment professionals work with clients to identify risky behavior and contains questions to help engage clients in a discussion about changing or avoiding these behaviors. (SAMHSA/CSAT, 2005)

ADV-900 HIV/AIDS-Don't Wait, Get Tested Today!

(limit: 1) poster

This 11"x17" poster shows a handsome, healthy-looking young man who does not know that he is positive for HIV. The caption reads, "He doesn't know he is HIV positive, Looks are Deceiving" promotes HIV testing. (CDC, 2004)

ADV-910 No Signs: HIV/AIDS- Don't Wait, Get Tested Today

(limit: 1) poster

This 11"x17" poster depicts many common signs seen as you drive down the street in the background and the foreground the message "No Signs: HIV/AIDS- Don't wait, get tested today!" The purpose is to encourage at risk individuals to get tested. (CDC, 2004)
