**SR-20 * Substance Abuse Among Older Adults
(limit: 1) book(s)**

These guides, based on TIP Series 26, bring together literature on substance abuse and gerontology to recommend best practices for identifying, screening, assessing and treating alcohol and prescription drug abuse among people age 60 and older. (CSAT, 2000)

- * **SR-20GSP A Guide for Social Service Providers** (68 pages)
- * **SR-20GTP A Guide for Treatment Providers** (68 pages)
- * **SR-20GPH A Guide for Physicians** (53 pages)
- * **SR-20GQG Pocket size Quick Guide** (53 pages)

**SR-23 Alcohol Use Among Older Adults
(limit: 10) brochure**

This pocket screener helps health care and social service providers (1) identify signs of possible alcohol problems among older adults, (2) intervene to help reduce alcohol consumption and (3) assist in obtaining evaluation and treatment for alcohol problems for older adults. It also includes a card containing two questionnaires that users can administer to see if clients need to be referred for a complete evaluation regarding their alcohol use. (CSAT, 2001)

**SR-24 * Aging, Medicines and Alcohol
(limit: 25) brochure(s)**

This brochure warns about misusing alcohol and medication and offers signals that may indicate an alcohol or medication-related problem. It also provides steps people can take if they recognize they have a problem. 7 pages (CSAT, 2001)

- * **SR-24E English**
- * **SR-24S Spanish**

**SR-50 Older Adults and Substance Use Disorders:
A Guide to Recovery from Misuse,
Dependency or Addiction Problems**

(limit: 1) book

This brochure is a guide to recovery from misuse, dependency or addiction problems. An explanation of substance use disorders and where to find help with recovery is provided. (SAMHSA, 2005)
